Vincent Massey Collegiate is an exceptional school that promotes academic excellence within an enriched CEGEP preparatory program. Our academic prowess is unsurpassed with a 100% success rate and with 95% of our graduates being accepted into their first choice CEGEP program.

Our success is due to a dedicated staff that challenges our students to excel through an enriched curriculum: Français langue d'enseignement (mother tongue), Français langue maternelle (mother tongue for second language learners), French Immersion program, Accelerated Mathematics, CEGEP-level Calculus, Enriched English Language Arts and a diverse choice of optional courses. VMC also offers over 50 extracurricular activities: sports, cultural activities and trips that allows our student body to participate each year.

Our goal is to develop students who are balanced with a strong academic foundation, developing leadership skills and an ability to work cooperatively. We hope you will join us in this unique high school experience.
